MORE SERVICE OFFERING:

We offer and specialize in a lot more services in the IT and Consultation space.

Let us help with your Cloud Migration Strategy.

Cloud Computing:

Cloud computing is the delivery of computing services over the internet

Some of the Benefits:

1. Reduced Costs
2. Scalability
3. Business Continuity

Business productivity largely depends on how well you manage employee time and attendance. Proper timekeeping can help you track the expected duration of specific projects and identify aspects that may take up more time than usual.

Software Development:

1. Websites
2. Web Applications
3. Desktop and Mobile Apps
4. Database Management and Integration

IT Support and Consultation:

1. End-User Support and Training
2. System Maintenance and Technical Support
3. Desktop and Software Installation
4. Network and Internet
5. Cabling and Infrastructure
6. Printers
7. Consultation and Business Analysis
8. Project Management
9. Assets Tagging

Access control is a security process which allows organizations or business owners to set specific restrictions of access to areas on a property, or resources.

Types of access control:

1. Biometrics
2. Physical Access Control
3. Privileged Access
4. Authorization

3 Types of Access Control:

1. Roles-Based Access Control
2. Attribute-Based Access Control
3. Discretionary Access Control

OUR ACCESS CONTROL DEVICES OFFERING:

We offer a variety of Access Control Devices with our service offering.

We use biometric devices. A biometric device is a security identification and authentication device. Such devices use automated methods of verifying or recognizing the identity of a living person.

1. Fingerprint devices
2. Card readers
3. Facial recognition devices
4. Access RFID tags and cards

TIME AND ATTENDANCE AND PAYROLL:

Time and attendance are the process of tracking employee work hours.

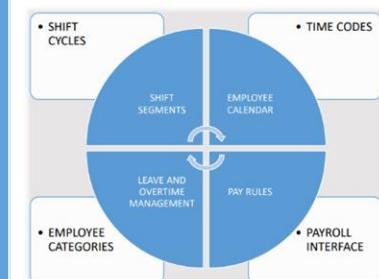

Benefits of a Time and Attendance System:

1. Increased Productivity
2. Eliminate Time Fraud
3. Cost Reduction
4. Payroll Simplification
5. Central System for all the employee data

Business productivity largely depends on how well you manage employee time and attendance. Proper timekeeping can help you track the expected duration of specific projects and identify aspects that may take up more time than usual.

Payroll Integration:

Our Workforce Management System can integrate with the top payroll systems such as SAP/VIP/SAGE/Workday etc.

Payroll integration is when your payroll system syncs with other software or programs. Integrated payroll lets you keep track of the information you need to successfully manage your employees and run your business.
